SPC ACTION

Summary of Action: Alaskan Way Viaduct Replacement Decision. Approve the Final Draft of the February 14 Seattle Planning Commission letter to Governor Christine Gregoire. The letter states the SPC's continued support for the tunnel option and further compels us to urge the State to proceed with replacement of the Viaduct with the tunnel option due to recent information and financial analysis about the available funds, along with our on-going concerns about the imminent risks to the public safety and welfare.

Please note the Director questions the need for Commissioner Clements to recuse on this vote.

**Commissioner Sheridan has recused herself from discussion and deliberations on this issue due to a conflict of interest as she has a contract with the Viaduct project preparing a portion of the EIS.

*** Commissioner Quintana has recused himself from discussion and deliberations on this issue.
